

The generic approach of FlexFinance ensures the coverage of a wide range of loan types. The sub-processes provided by FlexFinance are integrated into the life cycle, taking into account the specific characteristics of each type of loan.

In this way, the following credit types are supported:

- Consumer loans
- Corporate loans
- Current account overdrafts
- Mortgage loans
- Leasing
- Factoring
- Real Estate Payment Plans
- Sharia financing
- Foreign currency loans
- Syndicated loans
